

# Series 583

## 3 through 36-inches

### “Tite Seal” Foot Valve

Meets the Federal  
Mandate Limiting Lead  
in Drinking Water

- Minimal Head Loss
- 360° Stainless Steel Strainer
- Buna-N® “Tite Seal” Zero Leakage Means No Loss of Prime
- Equal to Pipe Size

Cla-Val “Tite Seal” foot valves provide years of trouble free operation at low or high pressures. The special Buna-N® seal allows initial contact to the metal plug, for zero leakage, then as pressure builds, the Buna-N® seal is compressed only slightly until the plug fully contacts the metal seat preventing further compression of the Buna-N® seal. In this manner the seal cannot be damaged from compression and pump prime is always assured. A 360 degree stainless steel strainer is provided standard with three times flow-through area of the foot valve size. This larger flow-through area strainer means flow can be maintained even should some small particles collect against the strainer. Cla-Val “Tite Seal” Foot Valves provide non-shock and silent shut-off.

### Cla-Val “Tite Seal” Foot Valve Specifications

The foot valve shall be globe style, flanged with resilient seal against metal; provide full flow equal to valve size and shut-off silently. Foot valve internals shall include a plug, double guided that allows full pipe flow when open. A guide bushing and all internals shall be field replaceable. The metal seat with Buna-N® seal shall provide zero leakage at low and high pressures without seal damage.

A heavy gauge 360 degree, stainless steel strainer (not plated steel) having a flow-thru area of at least three times that of the foot valve flow area shall be connected to the outside diameter of the inlet flange.

### Pressure Ratings

- 125/150 (Rated to 250 psi)

### Materials:

**Valve Body:** Ductile Iron ASTM 586 GR 65-45-12  
**Seat and Plug:** Bronze ASTM B584 Alloy C83600  
**Strainer Heavy Gauge 1/16":** Thick Stainless Steel

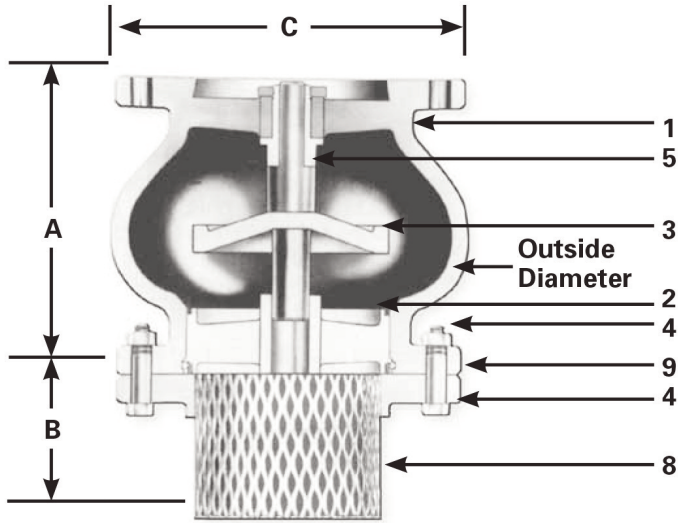

Meets Federal Mandate for Lead Content Limits

Test Certificate, Drawings, Parts List and O&M Manual Provided upon Request.
